Ilya Tribusean
Middle PHP developer

30 y.o.
+(373) 696-515
Moldova, Chisinau
slash3b[at]gmail[dot]com

Perks

PHP, phpunit, GNU/Linux, somewhat JS, Docker and docker-compose.

Symfony 2.7+, Laravel 5.1+, Drupal 6/7, MySQL, GIT, bash.

Saw awk and sed in the wild, strangely addicted to tmux. Favorite os - Fedora.

Exp

August 2016 - present time

FUSIONWORKS - Middle PHP developer

fusionworks.md

For awhile I worked on homewip.com - drapery ordering system that is built with Symfony 3, MongoDB and HAML. Later on I joined dev team working for pinknelson.nl. We are developing/supporting a bunch of internal/public application. Public application allows people to park a car in a specific zones all over Holland.

I have to work with Laravel, Symfony, MySQL, Mongo, docker and CakePHP ;-;

Here is the live version of one of the public apps - diemen.parkeer.nl

May 2016 - August 2016

WORLDDIGITAL - Web developer

worlddigital.com.au

I provided full development process from front-end to back-end functionality using HTML, CSS, SASS, Gulp and PHP. Mostly worked with Wordpress and provided Linux administration.

November 2014 - May 2016

DEEPLACE - Junior PHP developer

deeplace.md

Here I mostly worked with with Drupal 6 & 7 version. Mainly I worked on back-end tasks like bug fixing,

module development, services integration and legacy projects support. I had a chance to dive into BDD with Behat+Selenium and wrote a few scenarios in Gherkin, lastly took participation in integration of two government platforms via SOAP service.

2012 - October 2014

ZENITH OPTIMEDIA - media manager
vivaki.md

I worked closely with clients and provided media-campaigns running, annual multi-media strategy building, team management and campaign report building. 10% involvement in Digital Marketing (reports for banner, rich-media, SEM
placement campaigns), worked with Gemius software, AdWords.

2011 - 2012

JET RETOUCH - web designer, retoucher
jetretouch.com

Graphic design, retouch, photo editing
